

# PhotoPrime® Adhesion Promoters

- *PhotoPrime*® and PhotoPrime SR® primers provide tenacious binding to many difficult to coat substrates, including:
  - PEBAX®
  - Polyurethane
  - Nylon
  - Grilamid®
  - HDPE
  - LDPE
  - PEEK
  - Polypropylene
  - Silicone rubber
  - Stainless Steel and Nitinol wires

***PhotoPrime SR primer keeps a coating bound to the silicone rubber surface.***
