ISurTec

ISurTec Chairperson, Patrick Guire, Ph.D., Awarded The Excellence in Biomaterials Science Award at Biointerface 2024

Award is the highest accolade given by the Surfaces in Biomaterials Foundation.

ST. PAUL, MN — Innovative Surface Technologies (ISurTec), a leading provider of lubricious coating solutions for the healthcare industry, is thrilled to celebrate our Founder and Chairman, Dr. Patrick Guire, as he received the Excellence in Biomaterials Science Award given by the Surfaces in Biomaterials Foundation at BioInterface 2024.

Dr. Guire's outstanding career includes co-founding Surmodics, Inc. and founding ISurTec where he developed technology for surface modification of medical devices. Dr. Guire has also received the prestigious 2006 Tibbets Award and the 2008 Techne Award.

Please join us in congratulating Dr. Guire on this very distinguished award and his significant contributions to the biomaterials field.

More information about the award can be found here:
